

## Reinvent learning with Success2Learning

The ARAGO Consulting Success2Learning offer is an extended, comprehensive and modular learning management solution that meets the needs of all companies regardless of their "learning strategy".

### A full range of cloud tools with SAP SuccessFactors Learning integration

The Learning Management System (LMS) enables employees to access the entire learning catalog provided by their company. Within the SuccessFactors suite, the LMS makes it easier to acquire competencies and develop talents. SAP SuccessFactors Learning can be integrated with the following solutions:

provides total **control over the learning plan**.

set an **efficient and flexible management** of the learning plan.

offers **new and attractive formats** such as gamification and MOOCs, and promotes expert engagement and collaboration.

**facilitates access to training** through micro-learning and mobile learning.

enables a **social and collaborative** work mode.

creates e-learning modules, and produces and **shares documentation**.

**ensures adoption** of these new practices via digital support.

SAP SuccessFactors is the single entry point for the entire range of tools.

Enhance employee  
involvement

Develop  
competencies

Improve operational  
efficiency
