SAP App Center

Give more value to your Learning Processes!

The application SOFT is the best way to ensure an « On the go » training requests, with a clear visibility on the status of assignment. It also ensures the management of in-plan and off-plan requests whether in and outside the catalog. The app automates the assignments and allows a self-service assignment depending on item types or approbation processes.

SOFT is part of the complete and modular Success2Learning offer and can also be integrated into other SuccessFactors modules such as Performance and Goals Management.

SOFT can be integrated into Training Management Systems such as Training Orchestra.
